

Go Green

1 Know Your Investment Energy Resources

Understand the major investment asset classes:

- Cash Equivalents
- Bonds
- Stocks

2 Protect Your Investing Environment from Erosion

Know the different kinds of risks associated with investing:

- Market risk
- Inflation risk
- Business risk
- Interest-rate risk

Utilize these investment strategy tips to help support a sustainable financial future

3 Drive a Hybrid

Help manage investment risk by diversifying your money among the different asset classes.

5 Plant New Seeds

Imagine the possibilities with increased contributions—larger contributions equal less in taxes, and the potential for a flowering retirement. Plan on increasing your contribution at least 1-2%.

4 Recycle

Always review your investments periodically to make sure they are meeting your needs. Rebalance as needed.
